Oct 2024

Policy Address
2024

Expand the
service scope of
the **CDCC**

CDCC Pilot Scheme

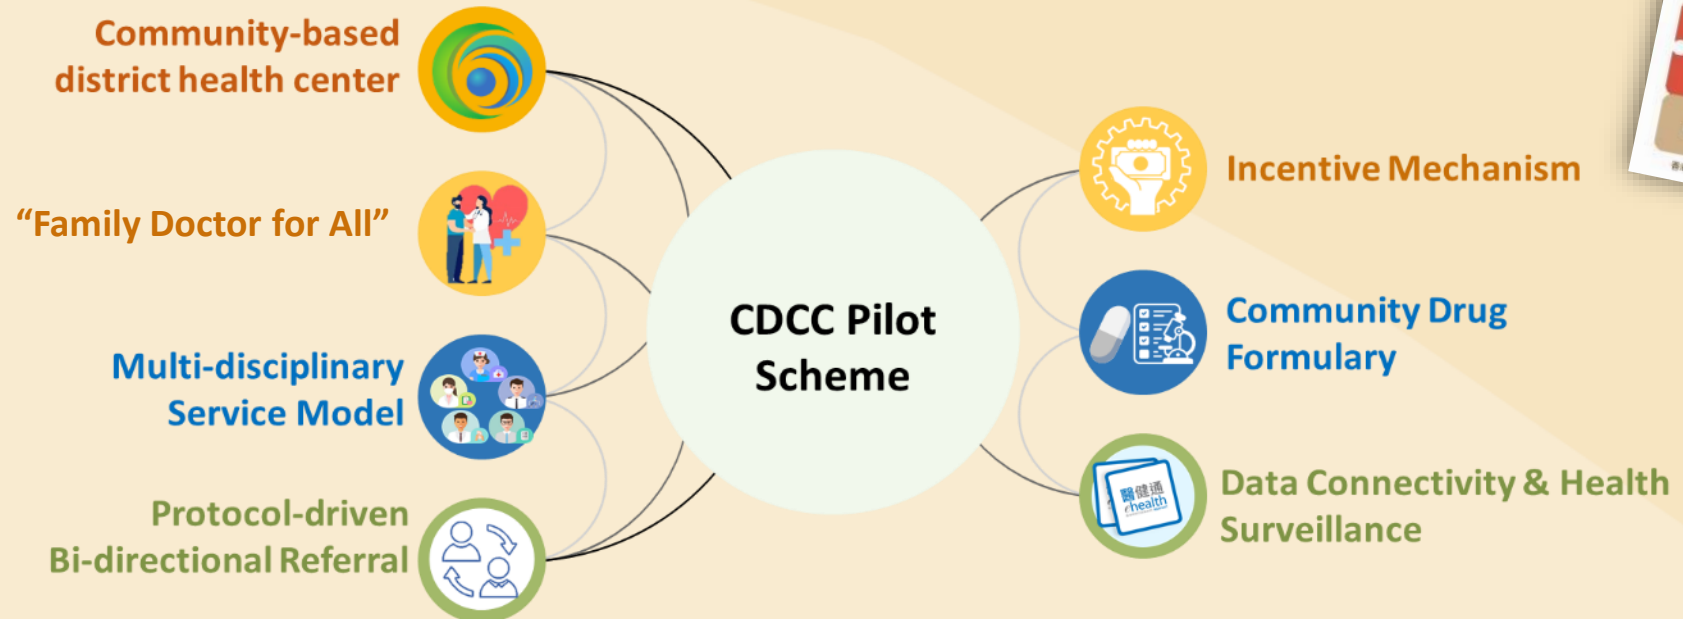

- Subsidies for diabetes mellitus (DM) and hypertension (HT)
- “Family Doctor for All”
- Coordinated by District Health Centre (DHC)/DHC Express (DHCE)

Eligibility

- HK residents aged ≥ 45 years
- Has no known medical history of DM/HT
- Has registered as a DHC/DHCE member and agrees to share his/her data in the Electronic Health Record Sharing System (eHRSS) with related service providers

Key Elements

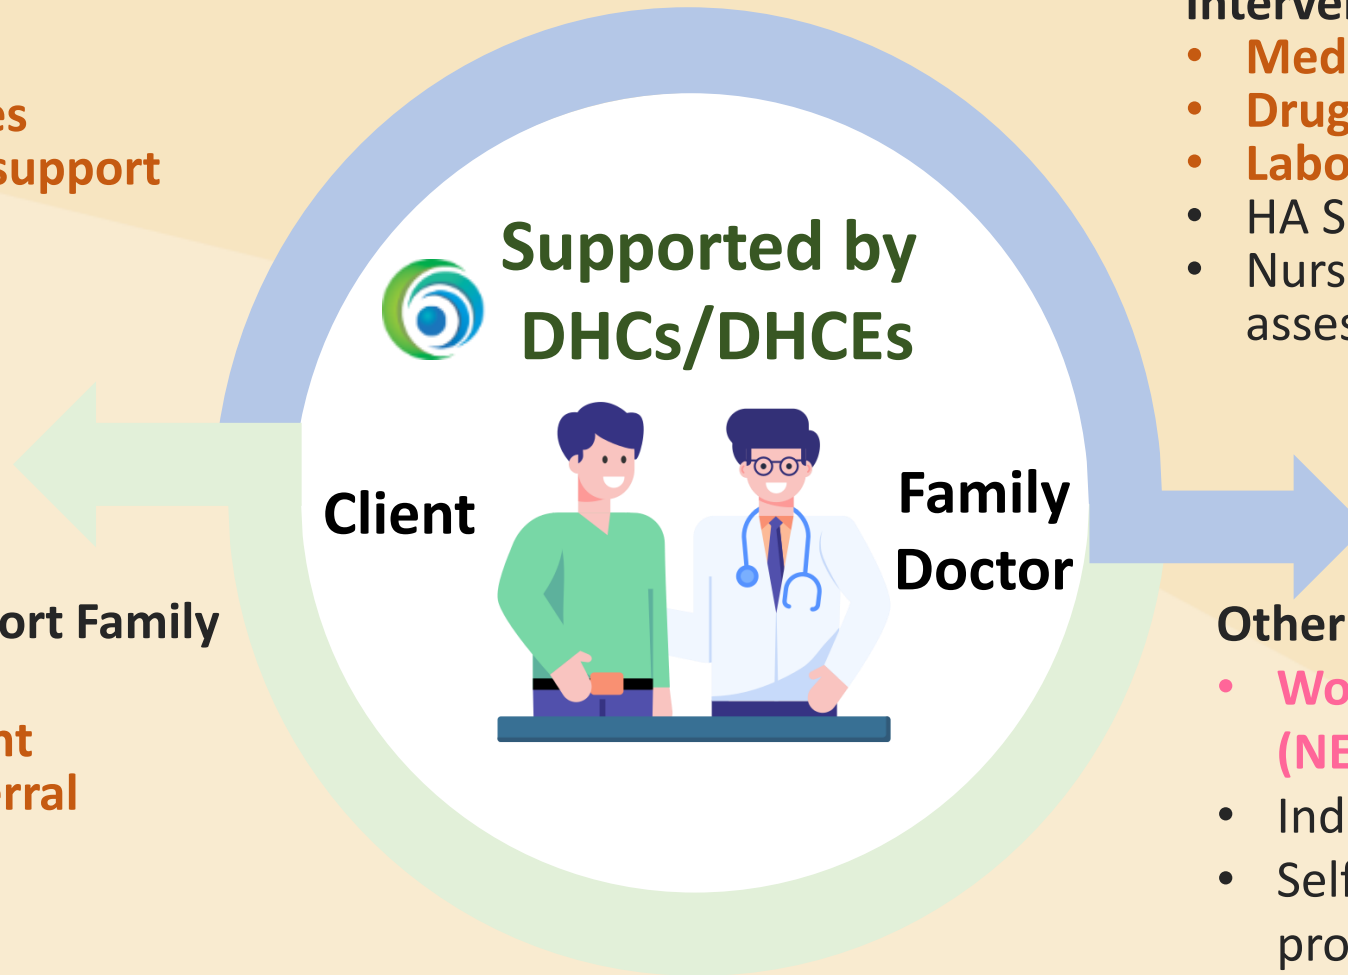

Family Doctors (FDs), CDCC & DHCs / DHCEs

Clients enjoy:

- Subsidised services
- Life modification support
- eHealth App

DHCs/DHCEs to support Family doctors :

- Make appointment
- bi-directional referral

Interventions in CDCC Pilot Scheme:

- Medical consultation
- Drug treatment
- Laboratory tests
- HA Specialist consultation
- Nurse clinic, Optometry assessment

Other services at DHCs/DHCEs:

- Women health education (NEW)
- Individual counselling
- Self management support programme

Profile of FDs

- **FD Enrolment**

- 599 doctors enrolled as FDs in the Scheme

- **Service Location**

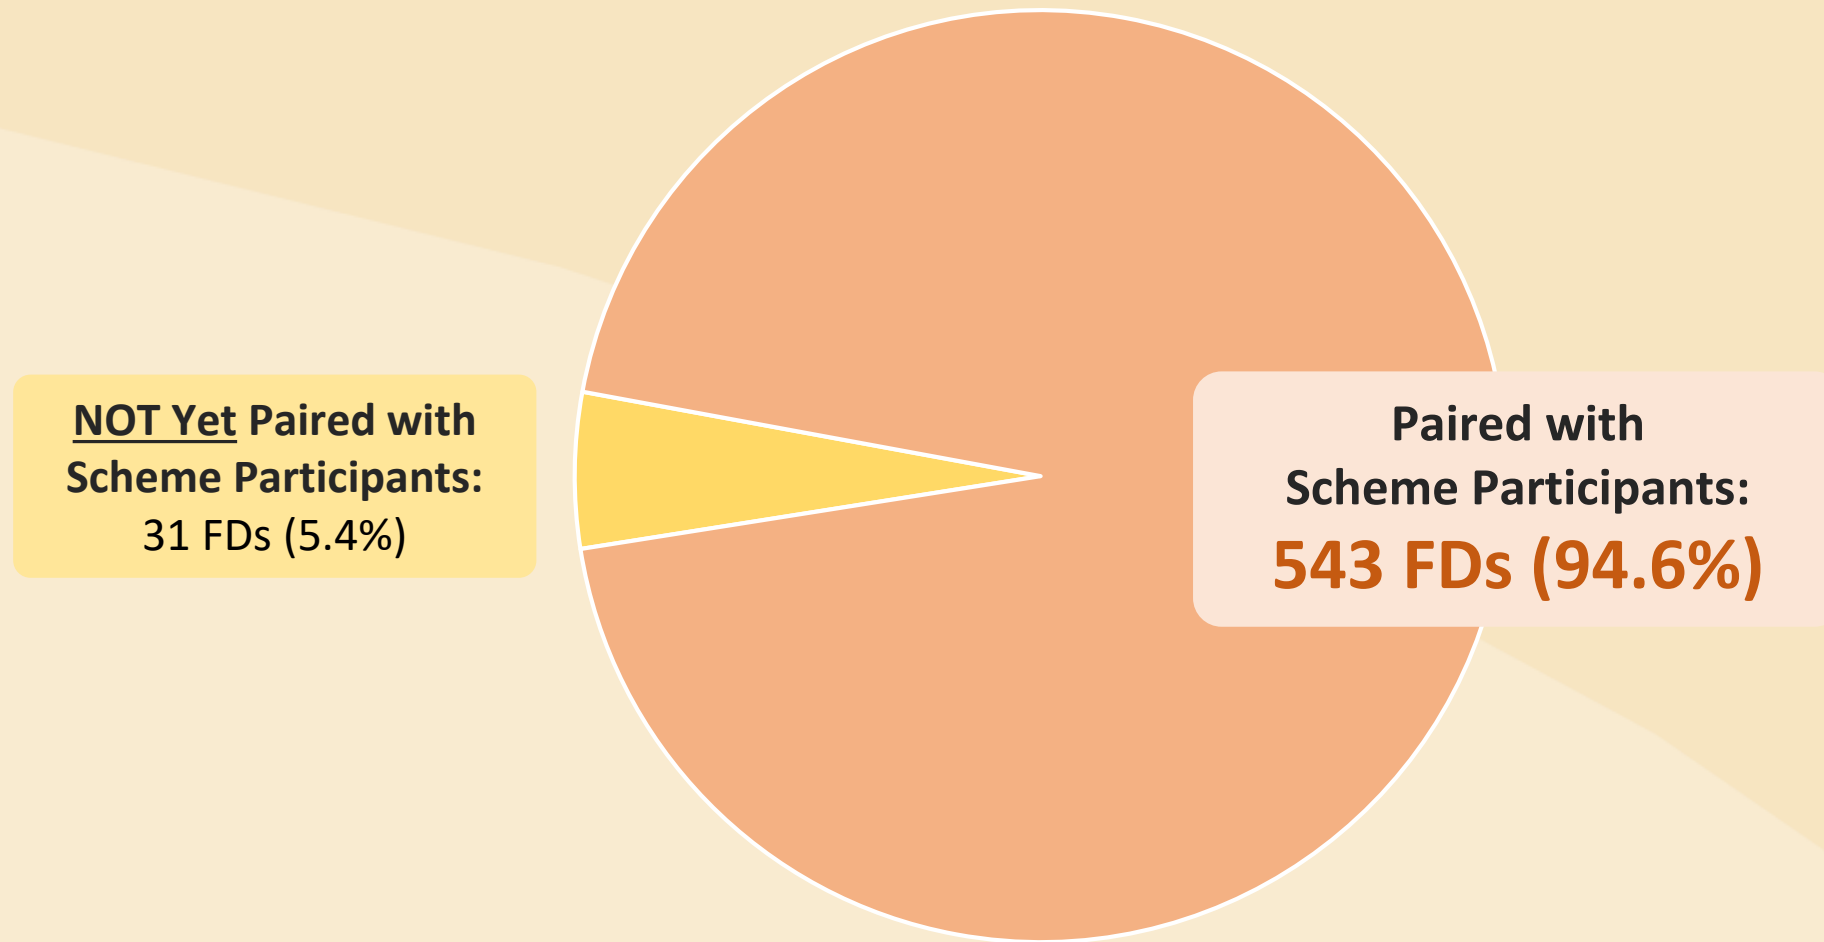

- 671 service locations ^{Note 1} covering 18 districts

District	No. of Service Location (As at 30 September 2024)
Central and Western	51
Eastern	75
Southern	16
Wan Chai	58
Kowloon City	26
Kwun Tong	47
Sham Shui Po	28
Wong Tai Sin	18
Yau Tsim Mong	90
Islands	12
Kwai Tsing	29
North	16
Sai Kung	37
Sha Tin	41
Tai Po	13
Tsuen Wan	29
Tuen Mun	53
Yuen Long	32
Total	671

Notes:

1. One FD may provide service in more than one service location.
2. Provisional figures as at 30 September 2024.
3. Excluding FDs withdrawn

FDs Pairing with CDCC Pilot Scheme Participants

Notes:

- 1. Provisional figures as at 30 September 2024.*
- 2. Excluding FDs withdrawn*

Co-payment Setting by FDs

- Among the 543 FDs with CDCC Pilot Scheme participants paired, the Co-payment setting by FD -

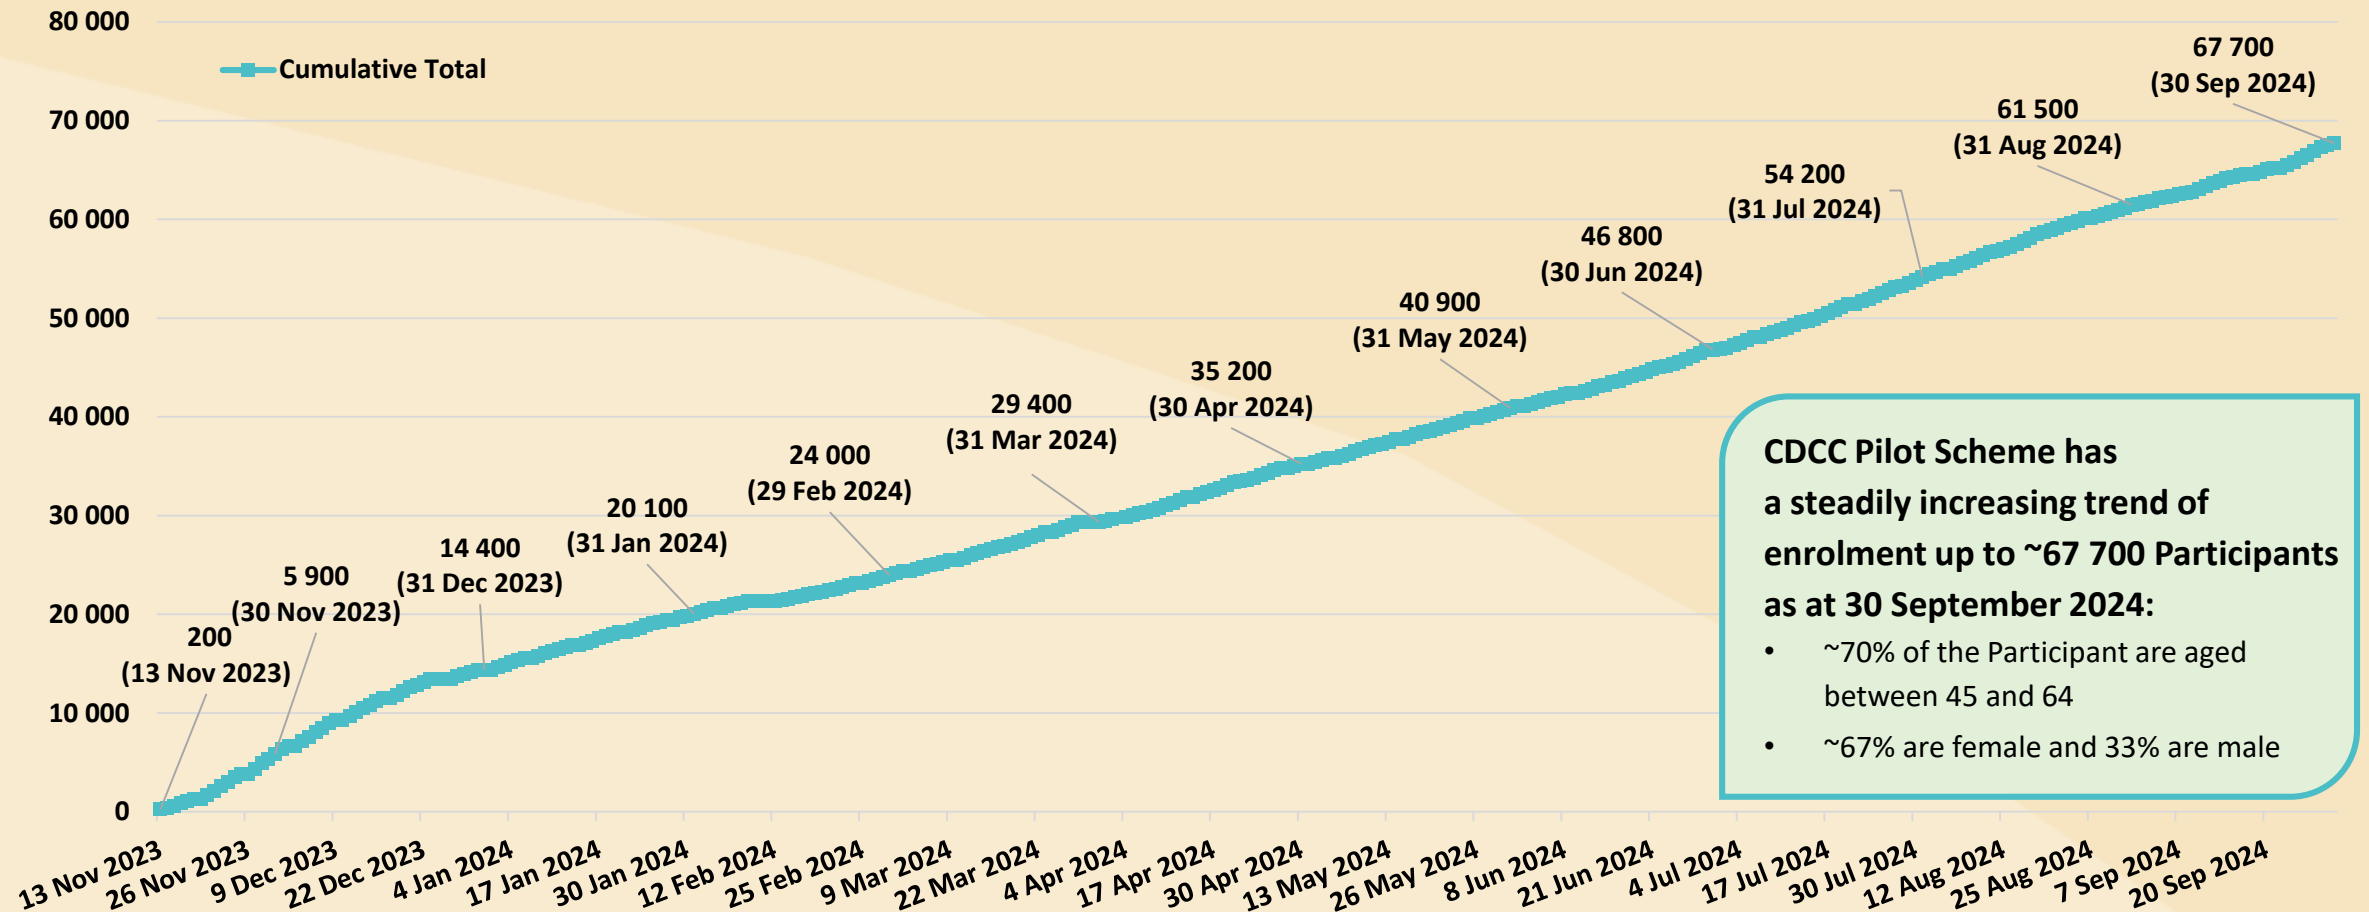

Co-payment Level (HK\$)	No. of FDs with CDCC Pilot Scheme Participants Paired
< \$150	78 (14.4%)
\$150	307 (56.5%)
> \$150	158 (29.1%)
Overall	543

Notes:

1. Provisional figures as at 30 September 2024.
2. Excluding FDs withdrawn

CDCC Pilot Scheme Participant Enrolment

Number of CDCC Pilot Scheme Participant Enrolment

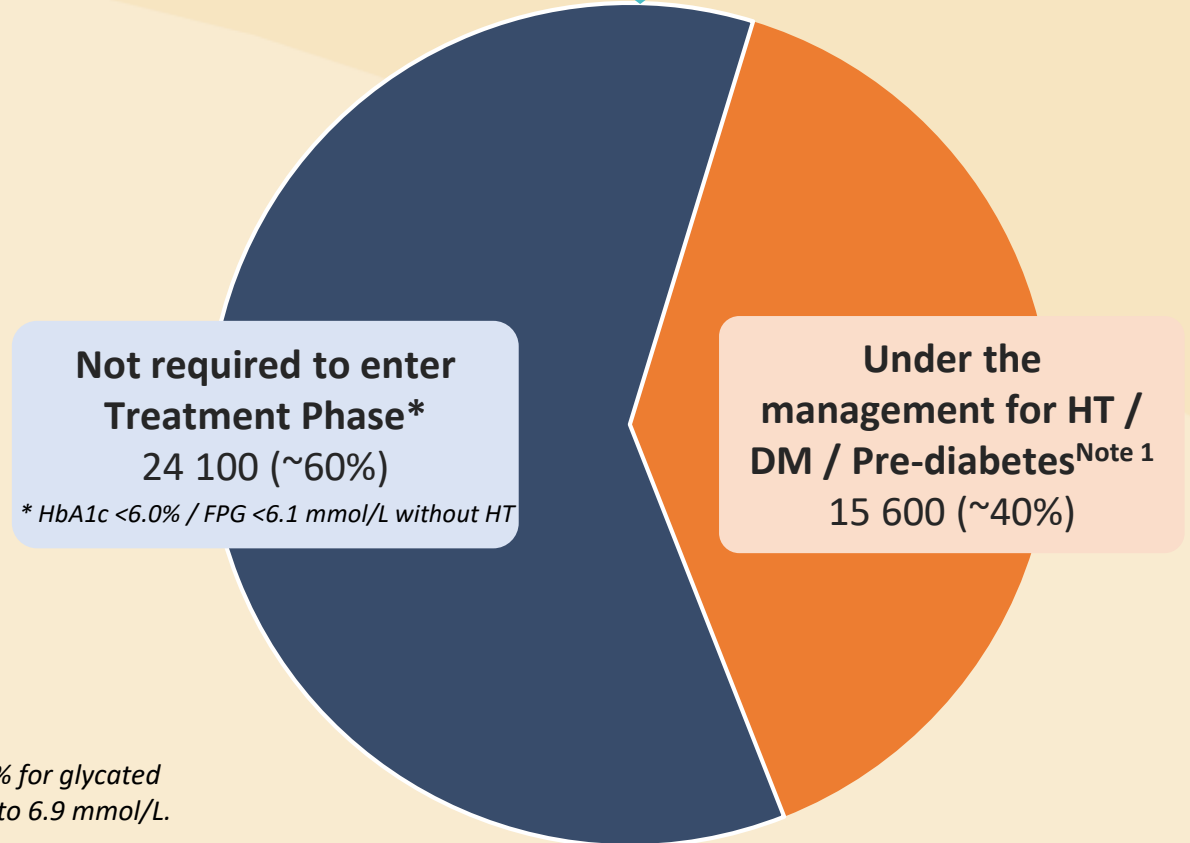

Notes:

1. Provisional figures as at 30 September 2024
2. Figures are rounded to the nearest hundred.
3. Age refers to the age as at the date of enrolment in the CDCC Pilot Scheme.

Admission to Treatment Phase upon screening

No. of participant enrolments: 67 700

No. of participants completed screening: 39 700

- >39 000 participants completed screening
- ~15 600 (~40%) of participants were diagnosed with HT/ DM / Prediabetes^{Note 1}

Notes:

1. A blood glucose level ranging from 6.0 to 6.4% for glycated haemoglobin or a fasting glucose level of 6.1 to 6.9 mmol/L.
2. Provisional figures as at 30 September 2024.
3. Figures are rounded to the nearest hundred.

Expansion of CDCC scheme

- Expand drug list
- Expand to lipid screening
- Plan to expand to hepatitis B screening
- Plan to have more support to Family Doctors
 - Women health services
 - DHC value-added services
 - Purchased district based allied health services

PCD enlisting as a pre-requisite for doctors to participate in Government-subsidised primary healthcare programmes

**EHVS
(Core programme)**

Vaccination

- VSS
- RVP

CRCSP

- Faecal Occult
Blood only
- Colonoscopy

**CDCC
Pilot Scheme**

*GOPC PPP
(phasing out)*

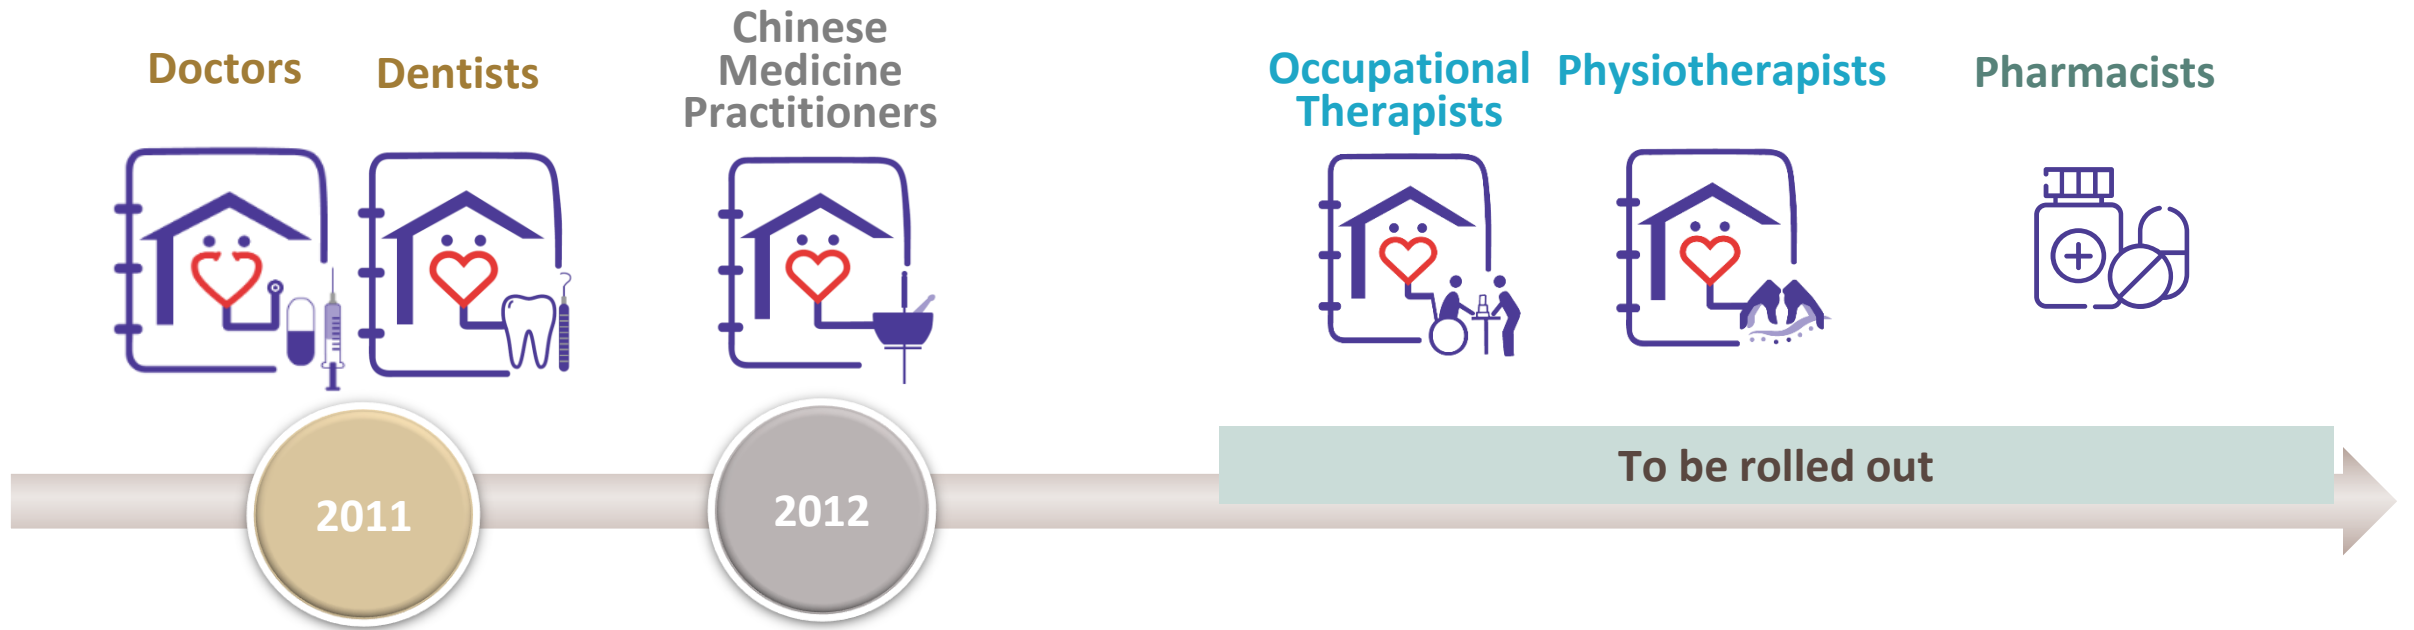

- **PCD doctors are highly encouraged to participate in the EHVS and at least one of the programmes of VSS, RVP, CRCSP, CDCC, GOPC PPP***

Abbreviations:

- PCD: Primary Care Directory

Service Flow of Chronic Disease Co-Care Pilot Scheme

Screening Phase

Treatment Phase

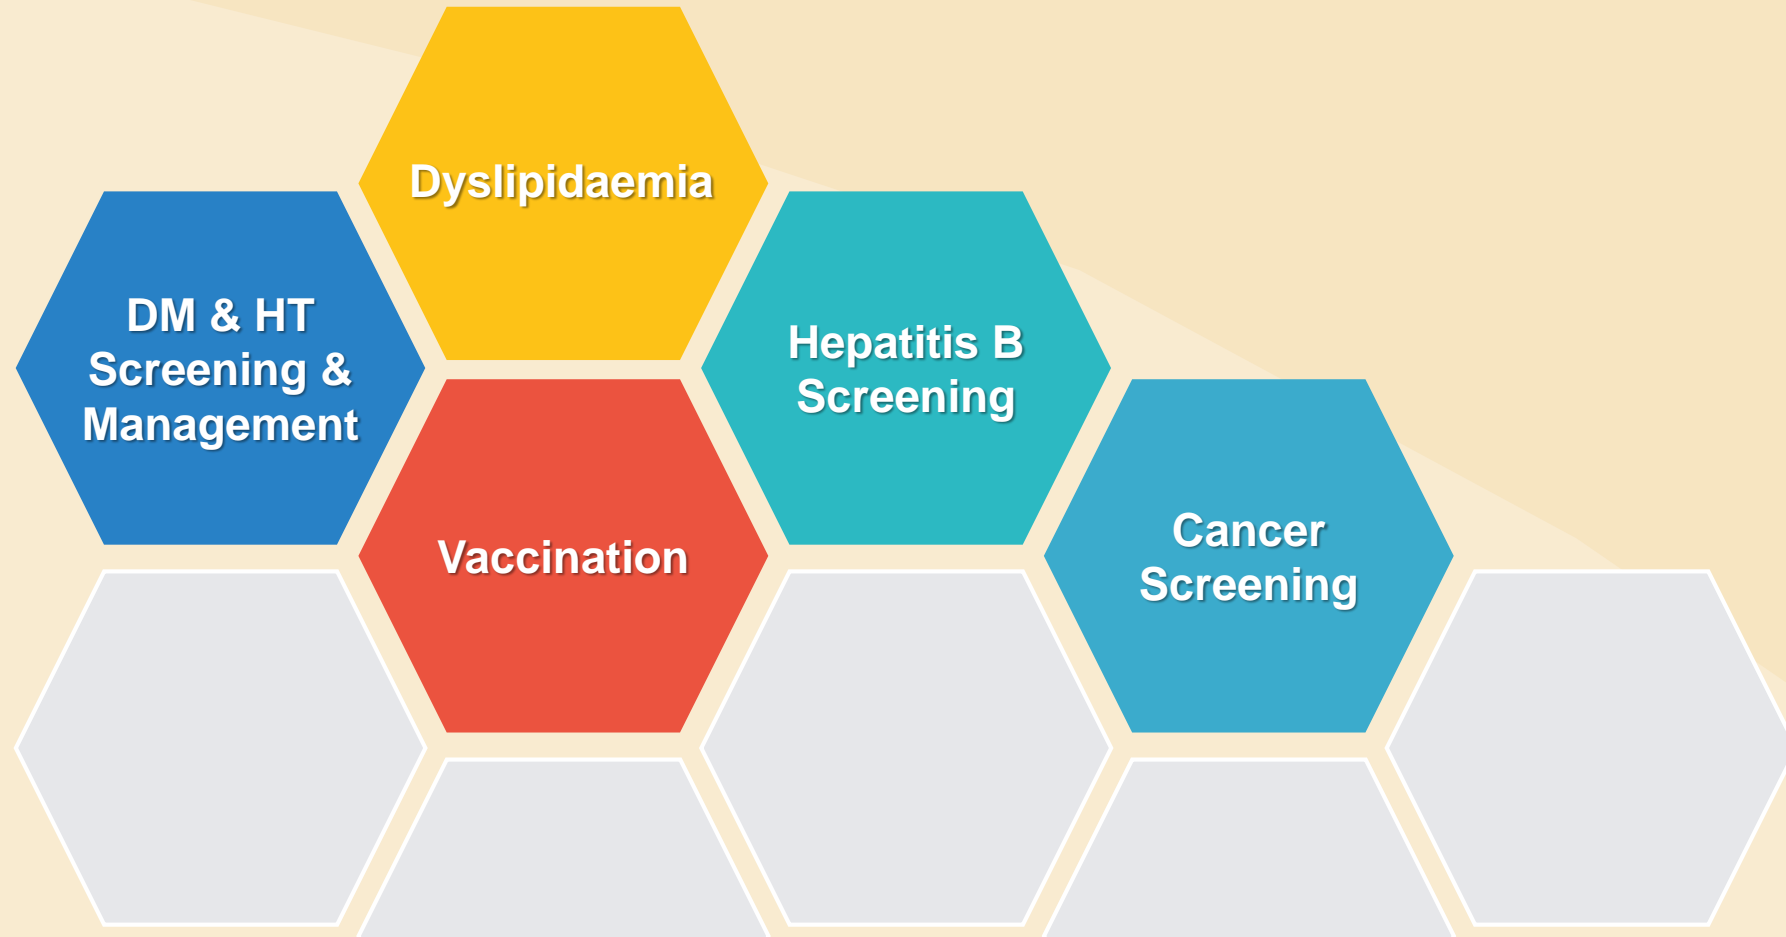

CDCC as a Platform for Multiple Initiatives

- Transform from programme based to platform based

Scope

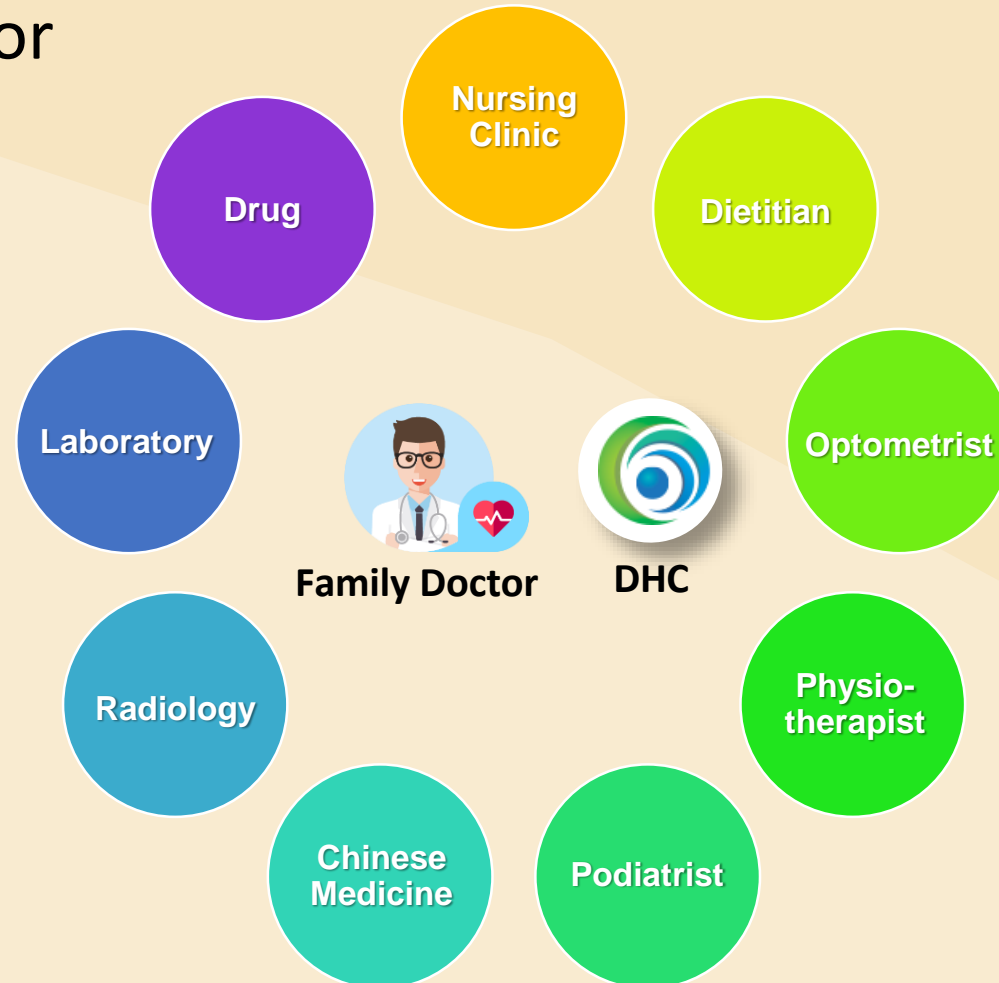

- Management and prevention of chronic diseases

Multi-disciplinary support

Function

- Family Doctor provide care to participant with multi-disciplinary support
- DHC as health coordinator

IT initiative to streamline the workflow

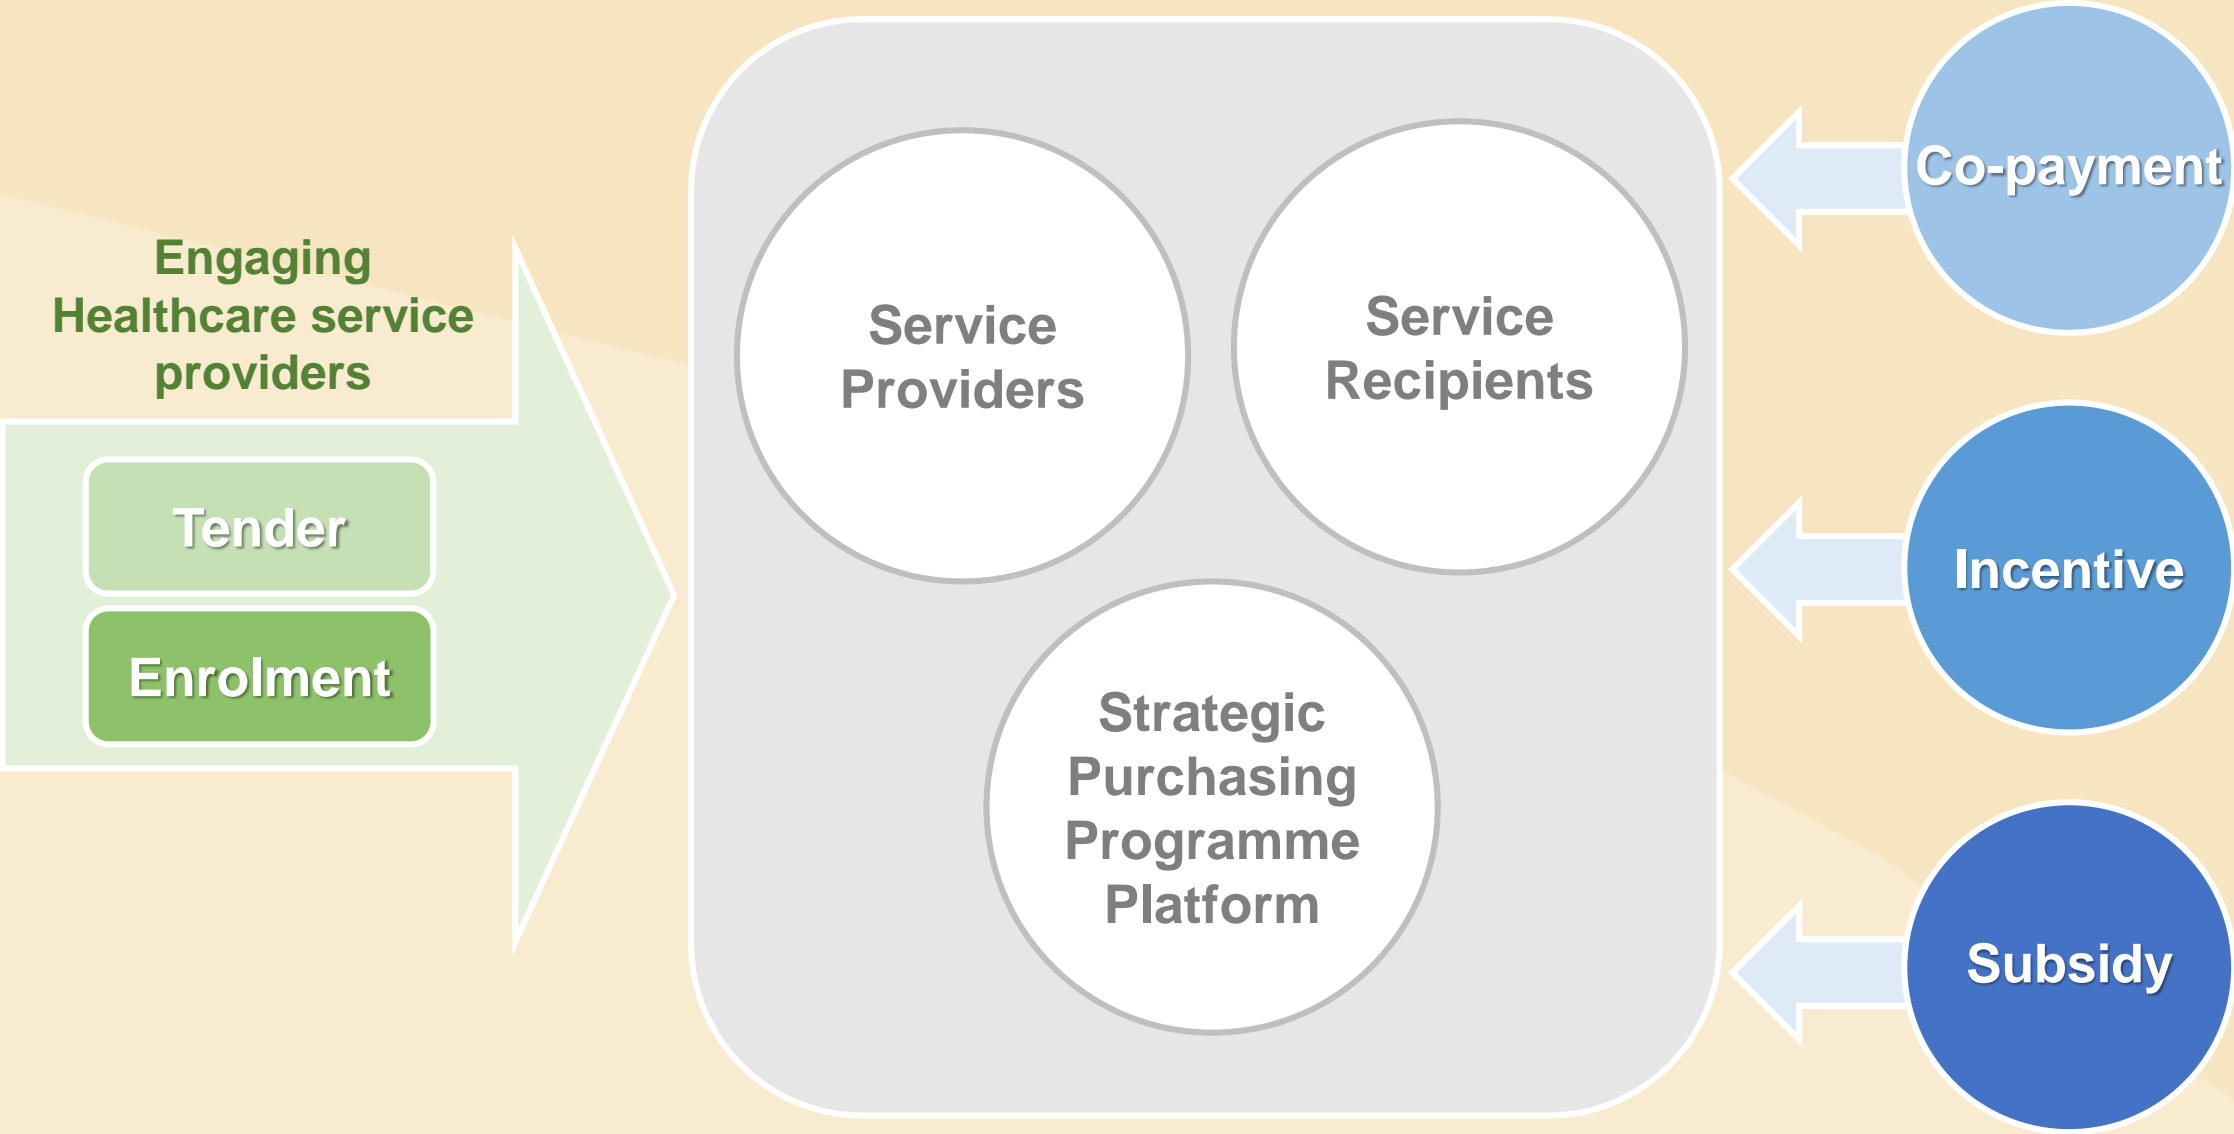

Projects

- Integration with service providers' business platform
 - to avoid duplicated data entry

- Central administrative function
 - To facilitate operations of institutional service providers

Business Model

Community Drug Formulary

- The “Specified Drug” list under the CDCC Pilot Scheme which would form the foundation of the future community drug formulary

Future Community Drug Formulary

- To support Scheme participant enrolled in the Government subsidised strategic purchasing programmes on drug access at affordable prices
- Family doctors participating in the programme and future community pharmacies can purchase drugs in the formulary from designated suppliers at discounted prices
- To extend scope of the Community Drug Formulary and explore mechanisms of different subsidies & co-payments in different drug tiers

Build for CDCC Platform

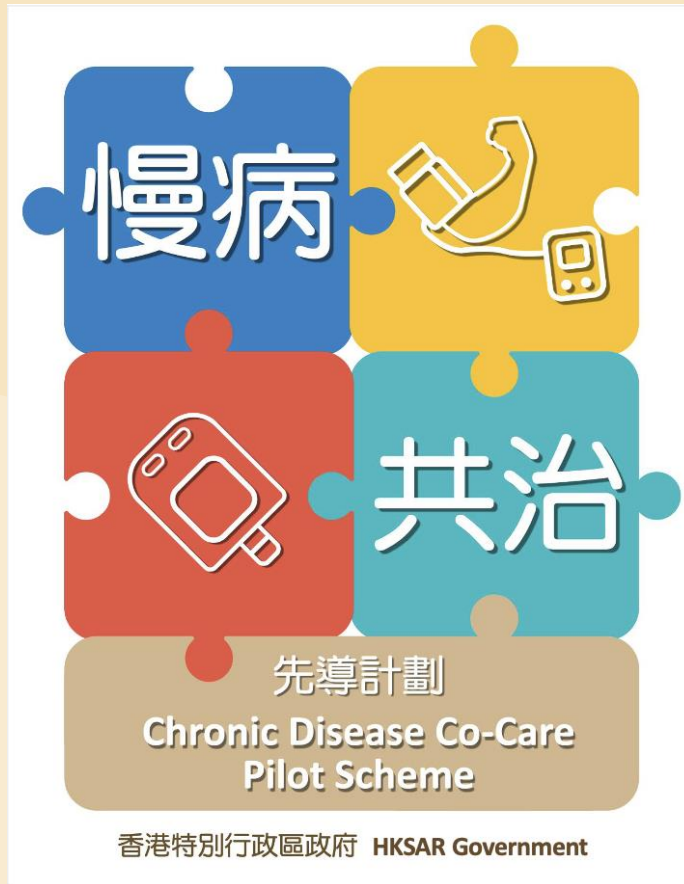

- Review CDCC service model in 1Q 2025
- Design post-pilot CDCC Platform to be launched in 2Q 2025

3. CDCC Pilot Scheme Operation and Working Partners

Single Platform - Multiple Function

➤ Doctors can work on **eHealth+** platform for the following functions:

- **Enrolment** into CDCC
- **Patient Management**
- **Laboratory tests** and other referrals
- **Drug ordering**
- **Reimbursement** claims

➤ **Ongoing collection of feedback** from doctors on the pilot scheme.

Highlights of Enhancements (1/2)

Based on feedback from doctors, system enhancements are introduced continuously:

Enrolment

- Simplified procedures for FDs already enrolled as GOPC PPP doctors ✓
- Batch enrolment for group doctors by clinic administrator ✓

Patient Registration/Enrolment

- Simplified ID card verification steps ✓
- Direct enrolment of participants at clinic (with \$76 administration fees) ✓

Co-payment

- Greater flexibility in determining co-payment by clinic location ✓
- Discretion in one-off downward adjustment of co-payment fee ✓

Highlights of Enhancements (2/2)

Patient Management

- Prescription records can be copied from last consultation 
- Investigation results uploaded automatically by laboratories 

Laboratory tests

- Reduce pages of referral notes 
- Additional blood collection points at District Health Centres 
- Streamline the results acknowledgement workflow 
- Enhance accessibility and choices in future arrangement 

Reimbursement Claims

- No more restrictions on submission time 

Drug List Expansion

- Added 16 drug items from 43 to 59 

Drug List (1/2)

Basic Tier

The provision of the specified drugs within this tier shall not incur any Co-Payment for Scheme Participants.

The co-payment for drugs within this tier is \$0. The list will be reviewed regularly and updated further.

Clinical Indication	Drugs
Anti-hypertensive	Amlodipine (Besylate) Tablet 5mg Amlodipine (Besylate) Tablet 10mg Atenolol Tablet 50mg Atenolol Tablet 100mg Dyazide (or Equiv) Tablet Felodipine Extended Release Tablet 2.5mg Felodipine Extended Release Tablet 5mg Felodipine Extended Release Tablet 10mg Hydrochlorothiazide Tablet 25mg Indapamide Tablet 2.5mg Lisinopril Tablet 5mg Lisinopril Tablet 10mg Lisinopril Tablet 20mg Losartan Potassium Tablet 50mg Losartan Potassium Tablet 100mg Metoprolol Tartrate Tablet 50mg Metoprolol Tartrate Tablet 100mg Moduretic (or Equiv) Tablet Perindopril Tertbutylamine Tablet 4mg Propranolol HCl Tablet 10mg
Supplementary to Anti-hypertensive	Aspirin Tablet 80mg Potassium Chloride SR Tablet 600mg Prazosin (HCl) Tablet 1mg Prazosin (HCl) Tablet 2mg Terazosin HCl Tablet 2mg

Clinical Indication	Drugs
Lipid-regulating	Atorvastatin (Calcium) Tablet 10mg Atorvastatin (Calcium) Tablet 20mg Gemfibrozil Capsule 300mg Gemfibrozil Tablet 600mg Rosuvastatin (Calcium) Tablet 10mg Rosuvastatin (Calcium) Tablet 20mg Simvastatin Tablet 10mg Simvastatin Tablet 20mg
Anti-diabetic	Gliclazide Tablet 80mg Metformin HCl Tablet 500mg Metformin HCl Prolonged Release Tablet 500mg
Antibiotics	Ampicillin Capsule 500mg Augmentin (or Equiv) Tablet 375mg Ciprofloxacin (HCl) Tablet 250mg Clarithromycin Tablet 250mg Clarithromycin Tablet 500mg Cloxacillin (Sodium) Capsule 250mg Cloxacillin (Sodium) Capsule 500mg

Drug List (2/2)

Clinical Indication	Drugs
Drugs for associated health problems	Aluminium / Magnesium Hydroxide and Simethicone Tablet Ammonia and Ipecacuanha Mixture* Chlorpheniramine Maleate Tablet 4mg Diclofenac Sodium Tablet 25mg Diclofenac Sodium Slow Release Tab 100mg Famotidine Tablet 20mg Famotidine Tablet 40mg Ibuprofen Tablet 200mg Loperamide HCl Capsule 2mg Loratadine Tablet 10mg Naproxen Tablet 250mg Paracetamol Tablet 500mg Pantoprazole (Sodium Sesquihydrate) Tablet 20mg Promethazine Compound Linctus* Senna Tablet 7.5mg Tramadol HCl Capsule 50mg

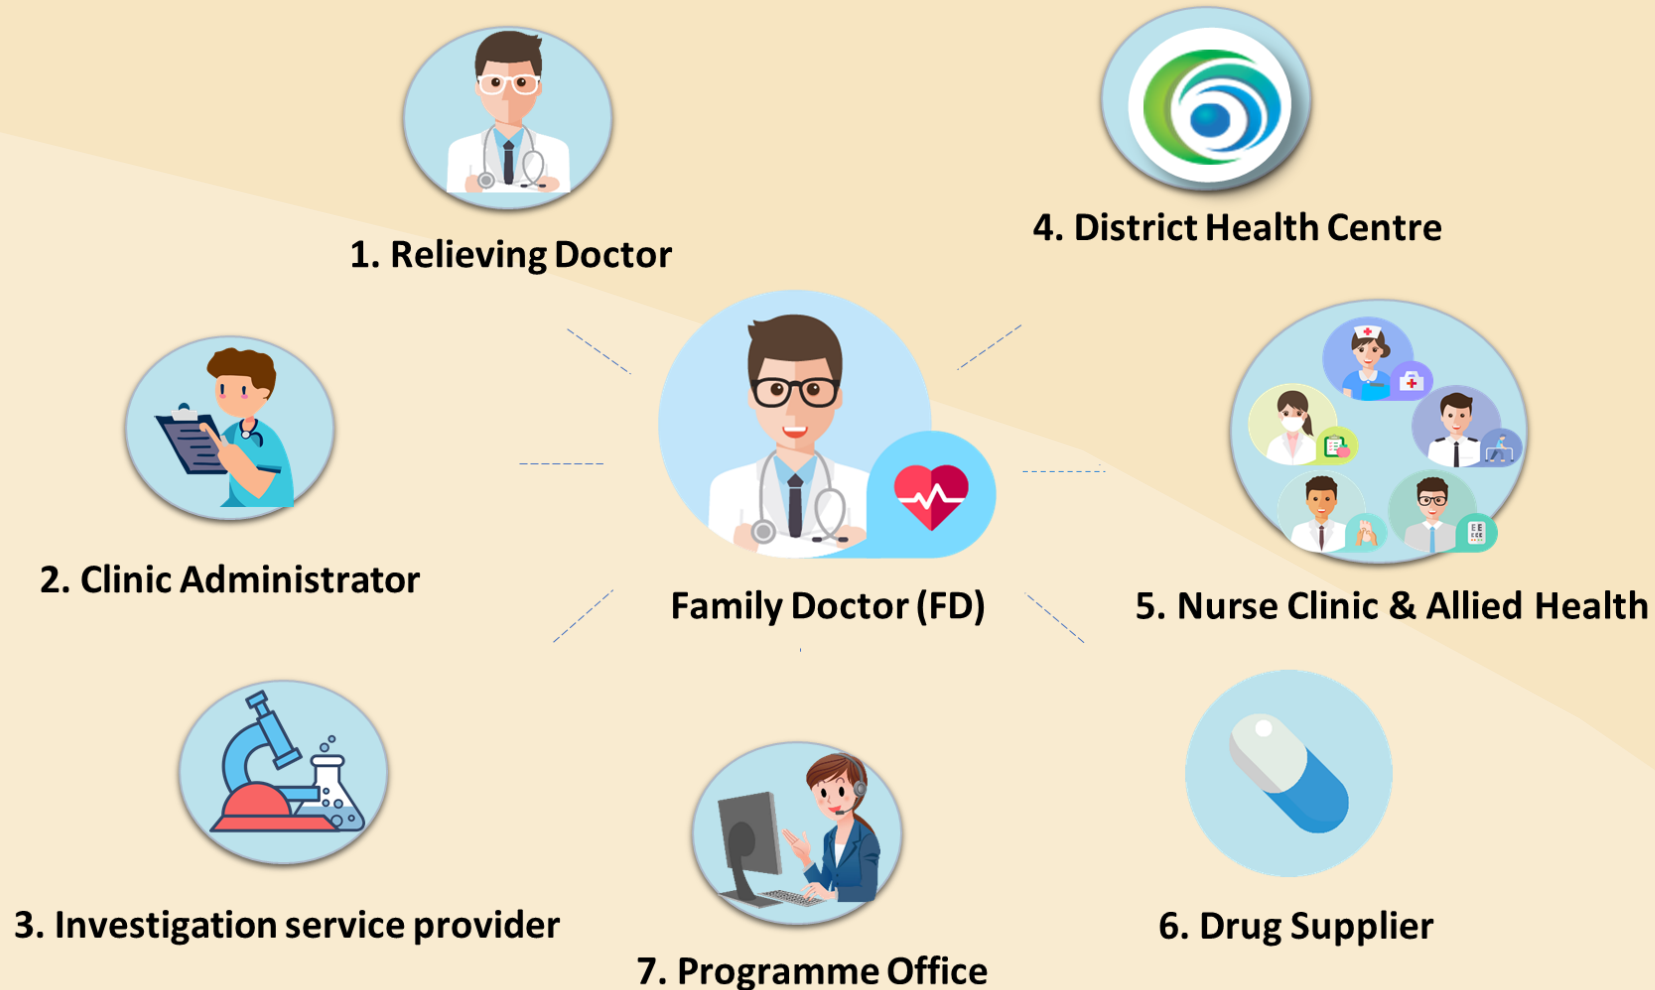

* 120ml/Bottle

Additional Tier

The provision of specified drugs under this tier and co-payment arrangements is subject to further development

Partners in the Health Journey

Partners in the Health Journey

Clinic Administrator

- Patient registration and check out
- Participant enrolment
- Drug ordering
- Supporting document submission
- More than one administrator can be assigned

Relieving Doctor

- Patient consultation
- Investigation referrals
- Accept new cases for principal doctor
- More than one relieving doctor can be assigned

Partners in the Health Journey

Investigation service provider

District Health Centre

Nurse Clinic & Allied Health

Multi-disciplinary collaboration via eHRSS viewer

- Family doctors can view the clinical information uploaded by other working partners
- District Health Centres, nursing and allied health partners can view the diagnosis and management plans input by family doctors

Notification of Laboratory Results via To-do-list

- Family doctors will be notified when laboratory results are available
